

3W LED NON MAINTAINED EMERGENCY

Please read the instructions prior to installation.

1. Check product labels for correct voltage and frequency before installation.
2. The maximum ambient temperature is 25°C. Keep the luminaire away from heat source i.e. heating duct, direct sunlight and other similar situations.
3. Only qualified electricians are to install these units in accordance with IEE regulations. Rated Input Voltage: 220-240V AC 50/60Hz
4. Do not connect the battery until there is uninterrupted mains supply available.

IMPORTANT SAFETY

Before installing this product or carrying out and service on this luminaire, ensure that the mains supply is fully isolated.

SPECIFICATION

LED: 3W

Rated input voltage: 220V-240V AC ~ 50/60Hz

Constant Current: 500mA

Duration: 3 Hour

Maximum Ambient Temperature: 25°C

Battery: 4.8V 1.8Ah Ni-CD

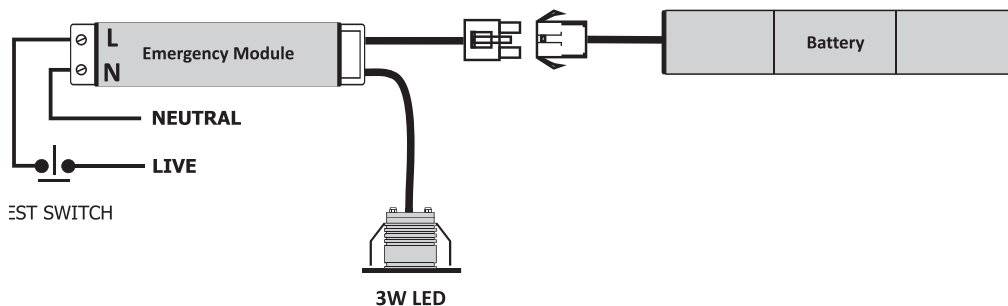

MODIFICATION

We don't recommend any modification to this product. Any modification may render the product as unsafe and will invalidate any safety / approvals. We will not accept any responsibility for any modified products or for any damage caused as a result of their modification.
